

### **Wolverton Health Centre Car parking Note**

The adjoining health centre uses car parking in NHSPS land, NHSPS have given the occupiers permission to use the car parking terminable immediately on notice.

It should be noted that as part of the pre application a total of 86 car parking spaces are to be maintained for use by the health centre. As the number of car parking spaces can not be accommodated within the freehold of the health centre, provision will need to be made for the shortfall in car parking as part of any redevelopment of the site and appropriate rights granted to the owner and occupiers of the health centre.
